

Transform SaaS Security with Deep Insights

Forcepoint Insights helps organizations overcome the visibility gap in SaaS security by delivering intuitive dashboards and comprehensive logging capabilities to swiftly respond to security events and streamline compliance requirements.

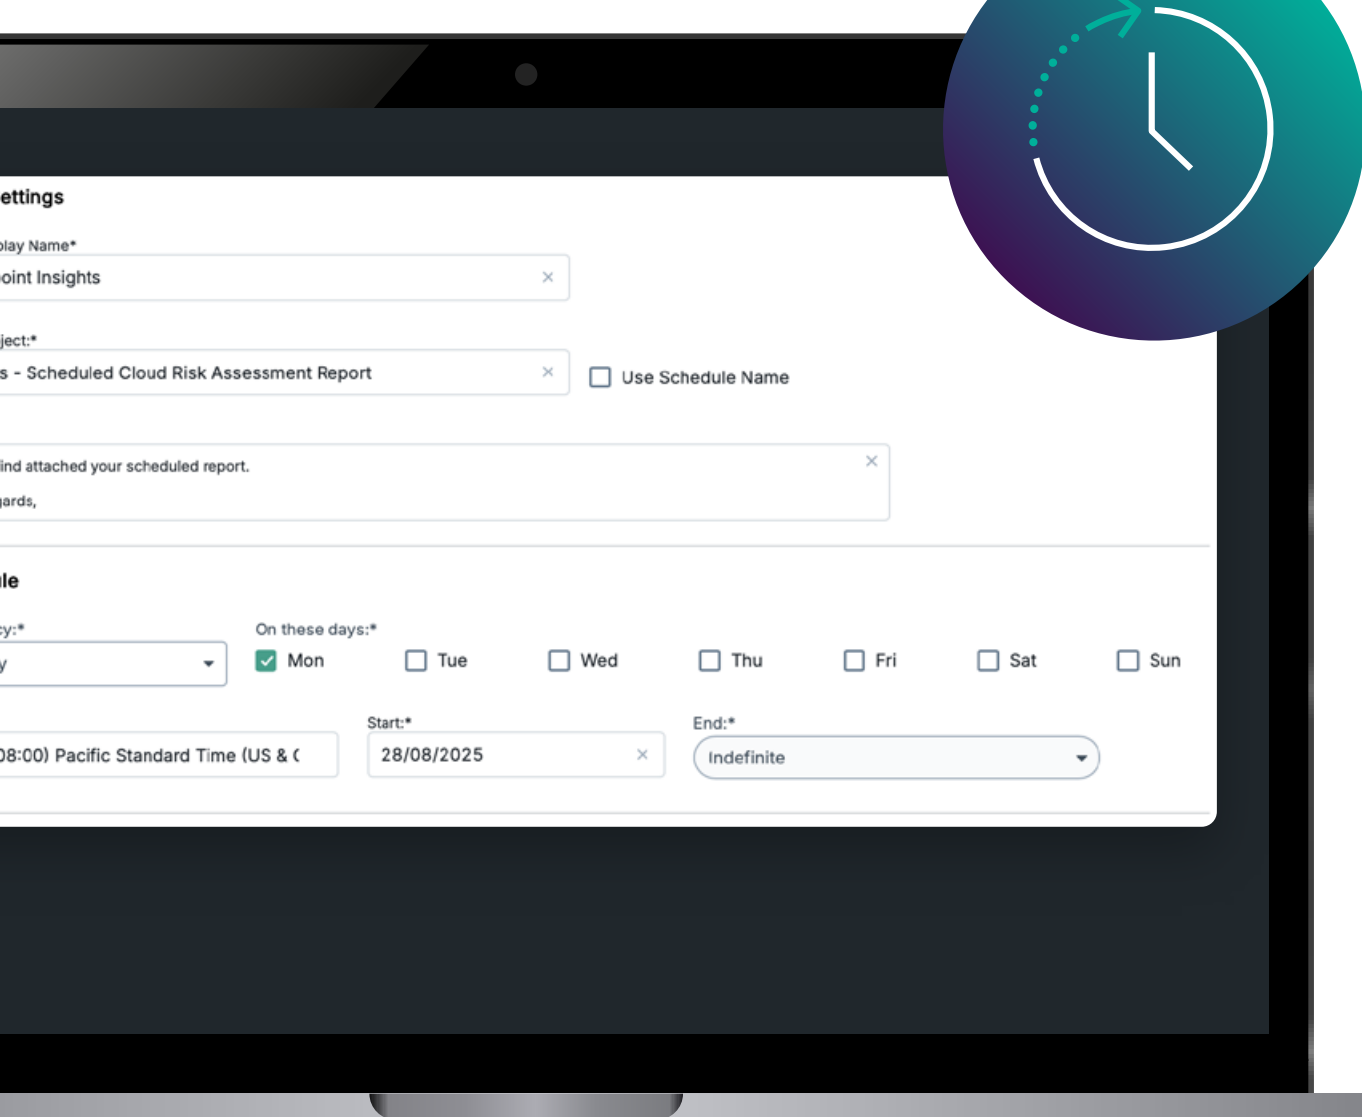

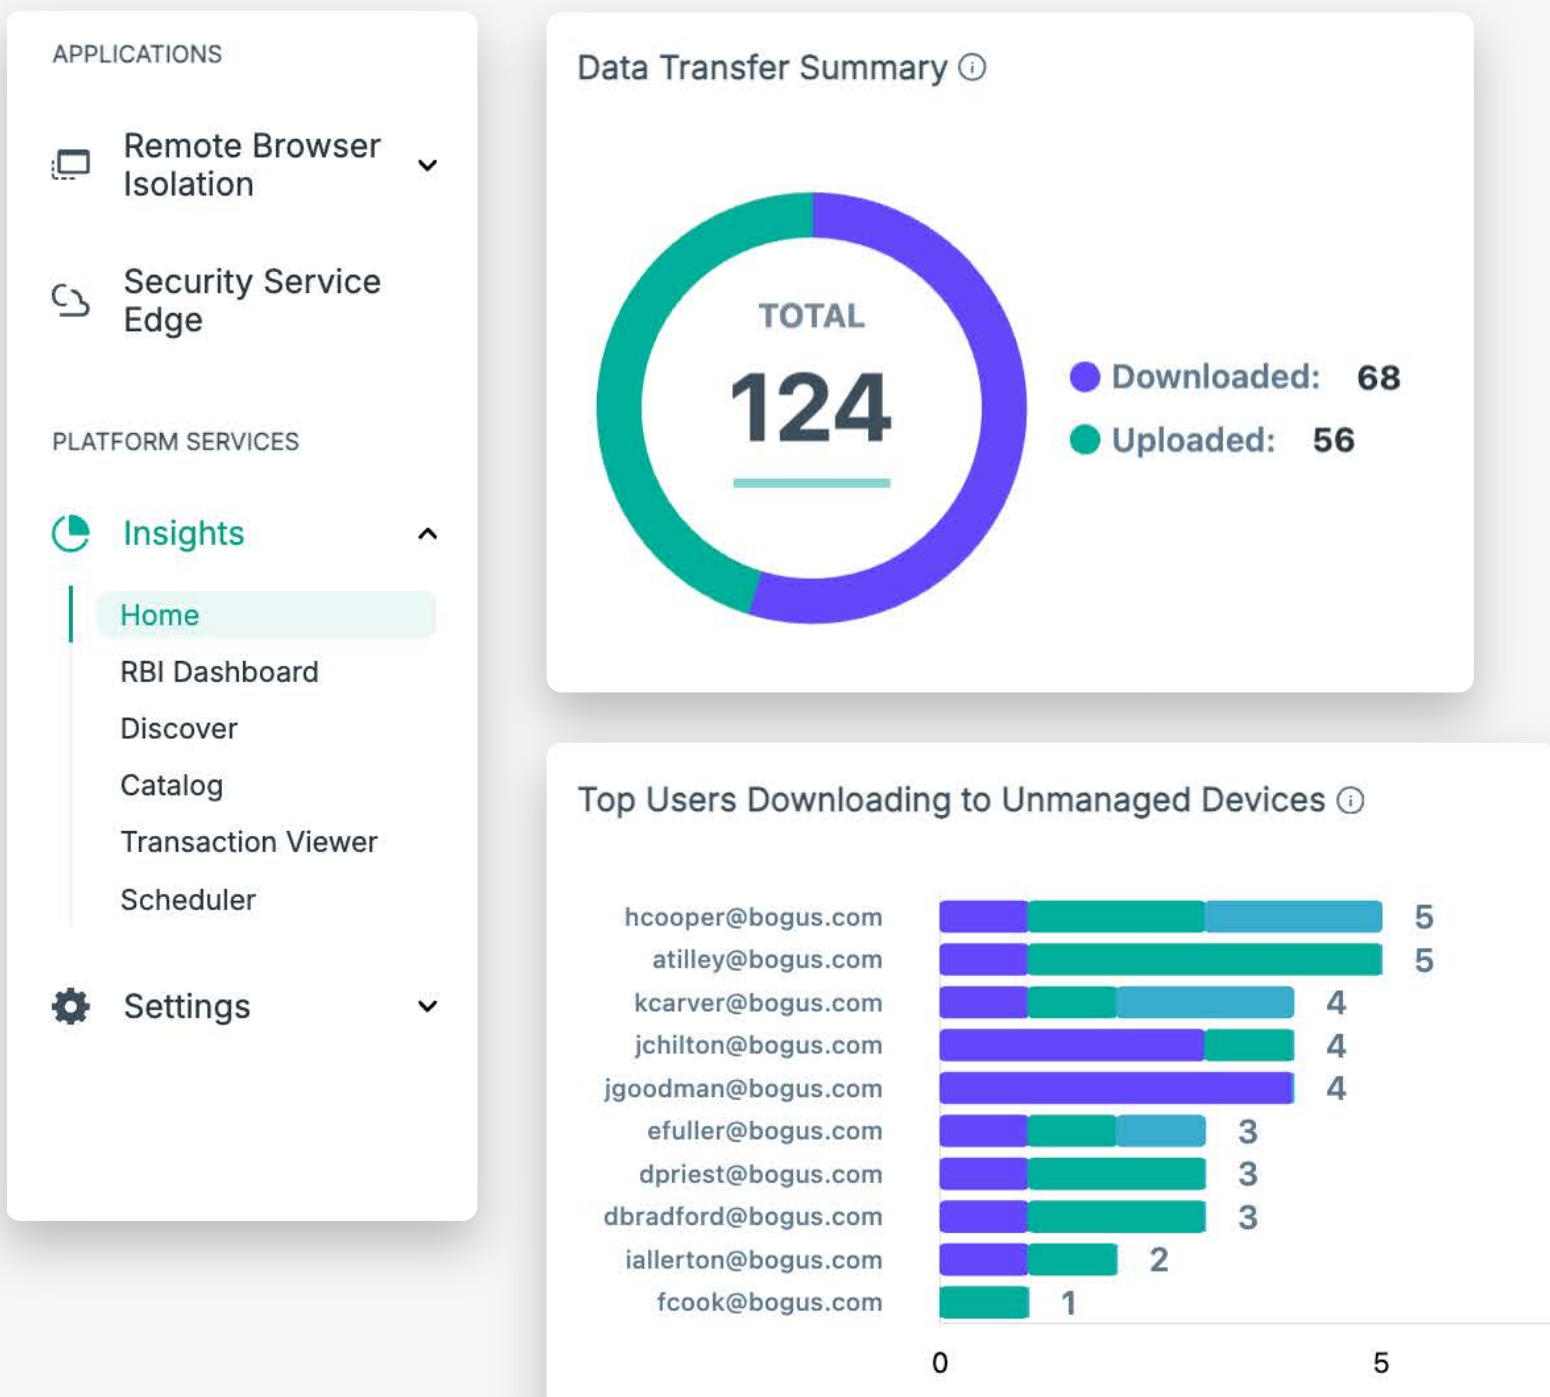

Get Fast Answers with a User-Friendly Interface

Empower security teams to quickly identify risks and trends with ready-to-use dashboards for data risk, threats and SaaS activity. Visualize critical metrics like sensitive files discovered, malware incidents, data exposure across apps and upload/download patterns.

Analyze Logs with Precision

Dive deep into activity and audit logs with powerful search, filtering and sorting tools. Define custom filters to support targeted searches and advanced analysis of activity and audit logs across environments.

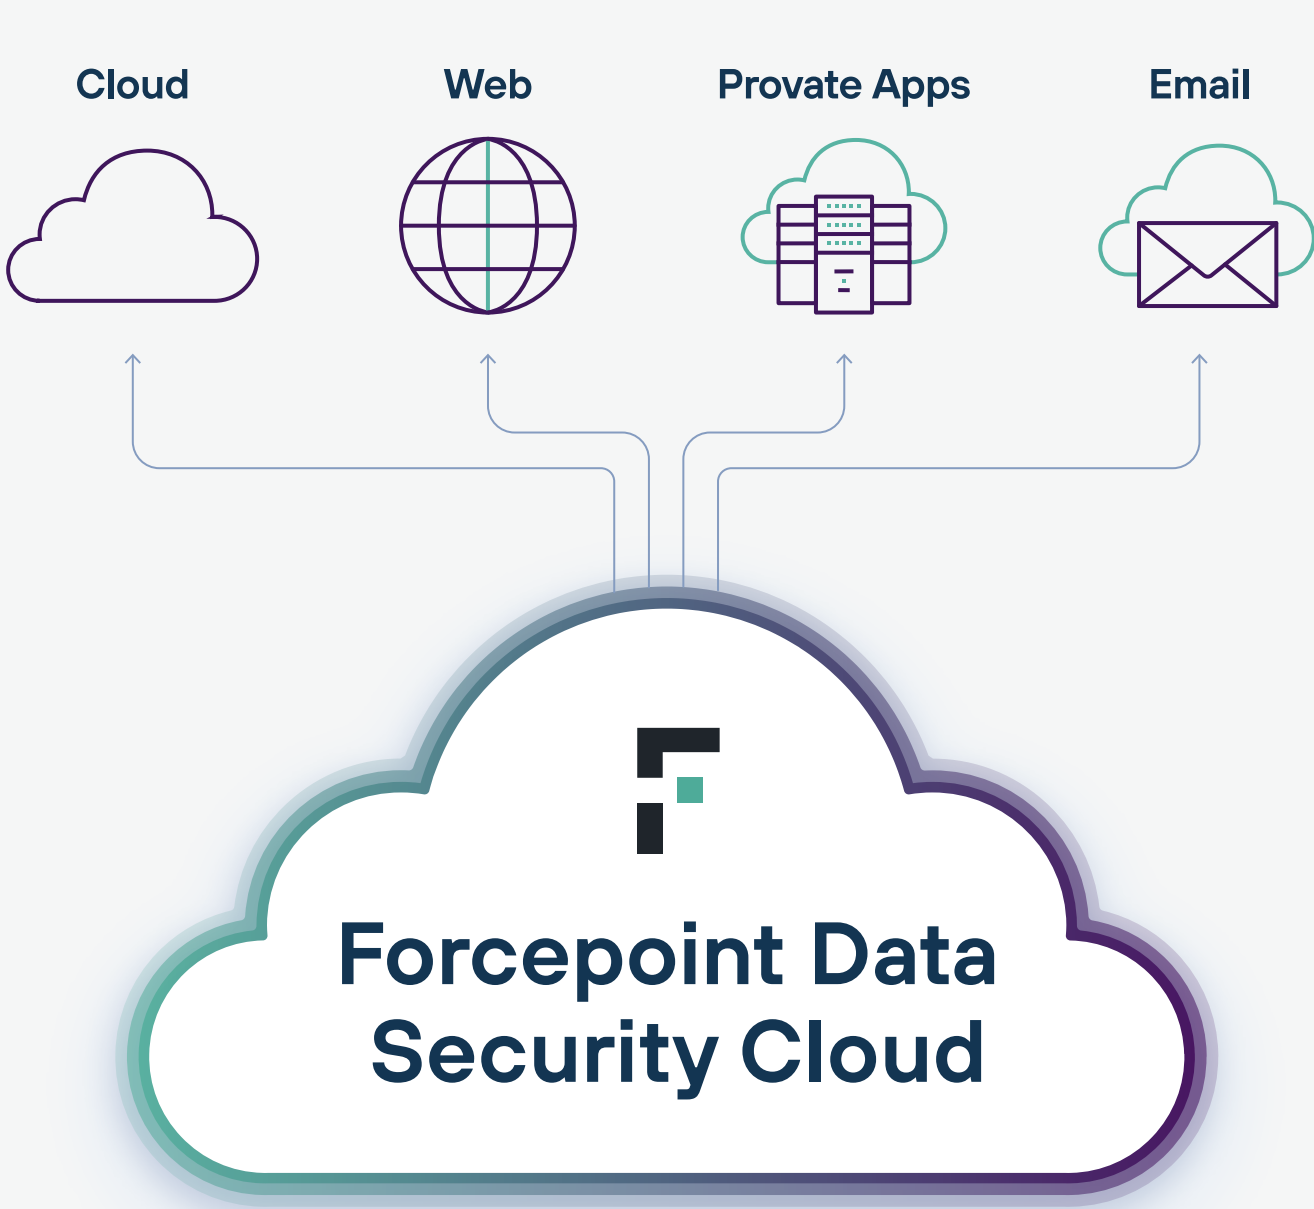

Scheduled Reporting

Automate the delivery of reports to designated recipients on a defined schedule. With flexible frequency options — daily, weekly or monthly — and support for multiple export formats, such as PDF and CSV, ensure your stakeholders receive timely and relevant insights without requiring manual effort.

Insights Reveals the Value of Stronger Security

Empower your organization and facilitate stakeholder buy-in with deeper insights into your SaaS investments and drive ROI. Enable your hybrid workforce to safely do more and drive business forward.
