	FORCEPOINT	ZSCALER	NETSKOPE	MCAFEE	SYMANTEC	CISCO	PROOFPOINT
<b>Converged Cloud Security as a Service</b> Access, Control and Data Protection for web content and cloud applications for any user, any device, at any location							
Unified console with platform SSO	●		●				●
Cloud native solution	●	●	●		●	●	●
Uniform policies for web, data, cloud, and email on a converged single endpoint	●				●		
Risk adaptive scoring based on human behavior and risk mitigation	●						
Unified endpoint with device level visibility	●			●			
Automated inline forwarding to CASB	●		●	●	●		
Single source of support	●			●			●
<b>Secure Web Gateway</b> Uniform protection for users both on and off the corporate network to ensure safe access to web content and cloud applications							
URL Filtering	●	●	●	●	●	●	
SSL Decryption	●	●	●	●	●	●	
Shadow IT discovery	●	●	●	●	●	●	●
Allow or block for cloud applications	●	●	●		●		●
Real-time content analysis and classification for over 100 categories	●						
Single unified global network	●

<b>Comprehensive Cloud Application Security</b> Protect data going to and from the cloud across managed and unmanaged devices							
Inline control for most cloud apps	●		●	●	●		●
Reverse proxy mode	●	●	●	●	●		●
API mode	●	●	●	●	●		●
Built-in behavior analytics and anomaly detection	●		●	●	●		
Secure and control most cloud apps, including custom cloud applications	●		●	●	●		●
<b>Complete Data Protection</b> Protect your data channels, devices and applications – on the web and in the cloud.							
9x MQ-leading enterprise DLP	●						
Omni-channel DLP coverage	●			●	●		
Seamless integration for policies, fingerprints, and classifiers across web, email, and cloud.	●		●	●	●		
<b>Advanced Threat Protection</b> Dynamic capabilities to keep your organization safe from a continually evolving threat landscape.							
Integrated and supported cloud sandboxing with full system emulation	●				●		
Integrated remote browser isolation	●	●			●		●
Cross-portfolio and third-party global shared threat intelligence network	●			●	●	●

<b>Cloud Infrastructure and Connectivity</b> Security at global scale with flexible connectivity options for each stage of an enterprise's digital transformation							
Global footprint with over 160 PoPs	●		●				
Coverage across 145 countries	●		●				
No additional costs or usage restrictions for PoPs	●						
Content localization	●			●			
Certifications across the entire operations lifecycle including; ISO 27001 and ISO 27108, CSA Star, SOC 1 and 2	●						
Proxy and Proxy-less endpoint	●						
GRE and IPsec tunnels	●	●	●				
Superior IPsec performance with >1Gbps per tunnel	●						
NGFW and Pac File traffic redirection	●	●		●	●	●	
EasyConnect traffic redirection to reduce management sprawl	●						

DISCALIMER: Product comparison is based off of in-product capabilities and cross-portfolio integrations available from the same vendor as of July 10th, 2020. Comparisons do not include integrations with third-party vendors. Feature comparison is based off of each vendor's most recent and modern version available as of July 10th, 2020. Information is based off of data collected from public websites and forums, analyst papers, and product datasheets as of July 10th, 2020.
