Certified Forcepoint Pre-Sales Engineer

Pre-Sales Engineers are the "jack of all trades" in the Sales world. These highly skilled technical sales professionals are tasked with obtaining the technical win of the sale. They manage relationships with their customers, deliver demonstrations and proof of concept and ultimately are tasked with designing a technical solution that accurately addresses customer needs. To finalize the technical win, the Pre-Sales Engineer must change hats quickly and act as a Sales professional to gain the support of the customer's key decision-makers. Pre-Sales Engineers are often the key point of contact for clients, answering queries, providing technical advice and introducing new products/features that will solve current and future customer problems.

To assist Pre-Sales Engineers with their day-to-day functions, Forcepoint offers six separate Pre-Sales Engineer learning plans by product.

Level 1

Level 2 - Workshops

Level 2 Demonstration based courseware became available in Forcepoint University in July 2019. This lab style training covers basic POC management. The workshop format of the training is designed to teach you how to access Forcepoint demos, how to set up demos and understand our software interfaces, and to provide you a set of demos for our product areas. Pre-Sales Engineers may pursue one or multiple certifications.

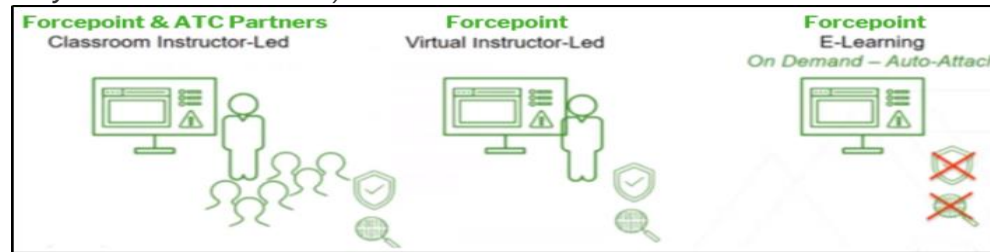

Learning Plan Names:

- Certified **Forcepoint NGFW** Pre-Sales Engineer-Level 2 Workshop
- Certified **Forcepoint DLP** Pre-Sales Engineer-Level 2 Workshop
- Certified **Forcepoint CASB** Pre-Sales Engineer-Level 2 Workshop
- Certified **Forcepoint Web Security** Pre-Sales Engineer-Level 2 Workshop
- Certified **Forcepoint Cloud Web Security** Pre-Sales Engineer-Level 2 Workshop
- Certified **Forcepoint Cloud Email Security** Pre-Sales Engineer-Level 2 Workshop

LEVEL 3

The Administrator courses are recommended for pre-sales engineers because of the additional exposure to the Forcepoint product interfaces. The Administrator courses are a valuable path for those who seek eventual professional services accreditation through the **Forcepoint ASP** (Accredited Services Partner) program. These courses are offered in multiple delivery modalities:

1. Classroom Instructor-Led
2. Virtual Instructor-Led
3. E-Learning (Does not qualify for ASP certification)

Administrator courses are available at: <https://www.forcepoint.com/partner-training-and-technical-certification>

- Forcepoint Email Security Administrator
- Forcepoint Cloud Email Security Administrator
- Forcepoint Web Security Administrator
- Forcepoint Cloud Web Security Administrator
- Forcepoint NGFW Administrator
- Forcepoint DLP Administrator
- Forcepoint CASB Administrator
- Forcepoint Insider Threat Administrator

Pre-Sales Engineers may pursue one or multiple certifications.

Each online course is followed by a short quiz. To attain a Certified Pre-Sales Engineer certificate(s), successful completion of all courses in a plan and associated quizzes is required. Pre-Sales Engineers may print their certificate of completion for each certification.

To enroll in the Certified Forcepoint Pre-Sales Engineer training:

1. Log in to Forcepoint Partner Portal and connect to Forcepoint University. You can self-register for the Certified Forcepoint Pre-Sales Engineer training on the Forcepoint University Landing Page.
