

Forcepoint

V Series Appliances

Industry-leading solutions catered to your business's needs—purpose-built to maximize scalability, performance, and efficiency.

Protection from Advanced Threats and data theft requires real-time inline security, with integrated defenses to analyze inbound and outbound web and email requests for malicious activity and data theft activity. The Forcepoint architecture provides unified visibility and control of web and email security across the entire kill chain, even when used with endpoint and cloud-based defenses.

Forcepoint's revolutionary V Series

Forcepoint V Series appliances are based on a preconfigured, security-hardened platform designed to support flexible deployment of our best-in-class web, email, data, and endpoint security solutions. Using virtualization technology, these solutions deliver high-performance, multiple-security services on a single platform. They provide complete visibility into inbound and outbound requests, including the growing use of SSL communications. The Forcepoint V Series appliances utilize the Forcepoint proprietary ACE technology that enables real-time composite defense assessments in high-traffic environments.

Real-time contextual defenses

- **Real-time inline security** from Forcepoint ACE, which unites eight defense assessment areas into a composite scoring model with predictive analysis.
- **Fully integrated enterprise DLP** helps customers quickly achieve and demonstrate compliance and data security measures.
- **Data theft defenses** detect slow-drip data leaks, password file data theft, custom encrypted files, and text within images using Optical Character Recognition (OCR).
- **Integrated behavioral file sandboxing** supports additional measures to identify zero-day and other advanced threats.
- **Hybrid deployment option** can use cloud email pre-filtering to reduce bandwidth abuse and optimize performance, plus email URL sandboxing for real-time phishing protection. Hybrid web security deployments can equally protect remote users with ACE defenses.
- **Unified Forcepoint architecture** with threat intelligence, console, policies, and reporting to help enable a lower TCO.

Forcepoint V20000 Appliance

Flagship model for large enterprises

Forcepoint V10000 Appliance

Mainstream model for mid-size businesses

Forcepoint V5000 Appliance

Entry-level model for branch offices

Reduce risk of advanced malware and data theft

- **Upgrade secure web gateways** with scalable real-time contextual defenses that surpass traditional AV and URL-filtering defenses and avoid the trade-off of performance over security.
- **Identify threats** in email from the most benign scam to APTs and other advanced threats, as well as providing controls for spam and other unwanted email traffic.
- **Contain infected systems**, block command and control communications, and mitigate data theft associated with drip (behavioral) DLP, custom encrypted files, password file theft prevention, analysis of confidential text images with optical character recognition (OCR), and geolocation destination awareness.
- **Drill down into reporting** forensics by severity, geolocation, group, or users with detailed analysis of threat characteristics, command, actions, and evidence of data theft.

Proven Forcepoint architecture, leadership, and trust

- Proven Forcepoint architecture that unifies web, email, data, and endpoint security with appliance, cloud, software, and hybrid deployments.

“More customers buy Forcepoint over other vendors because Forcepoint content security solutions go so much further than simple content filtering.”

ROBERT AVOUB

DLP only	✓		
URL Filtering only	✓		

FORCEPOINT V5000 G4R2 APPLIANCE SPECIFICATIONS

PROCESSOR: 1x Intel Xeon E-2144G
MEMORY: 16GB
HDD: Capacity 1TB (2 x 1TB, RAID-1)
NIC: 4x 10/100/1000Mb RJ-45 Ethernet Ports
POWER SUPPLY: Single 250W (100V-240V)
MISC: iDRAC 9 Enterprise card for light's out mgmt.

DIMENSIONS: 1U form factor, 23.5" D x 17.1" W x 1.69" H (595.6cm D x 43.4cm W x 4.28cm H)

HARDWARE SUPPORT: Globally available 24/7 by phone; Next Business Day or 4-hour on-site warranty for 36 months; 60 months on-site optional.

REGULATORY & COMPLIANCE: FCC / ICES / EN55022 / VCCI/BIS/BSMI / C-Tick / SABS / CCC / MIC Class A and UL60950-1 / Verified to comply with RoHS Directive / Energy consumption and noise emissions in accordance with ISO 9299

Ships with latest Forcepoint software and backwards compatible with 8.7.0 and above Forcepoint versions

FORCEPOINT V10000 G4R2 APPLIANCE SPECIFICATIONS

PROCESSOR: 2x Intel Xeon Silver 4110
MEMORY: 32GB
HDD: Capacity 1.2TB (3x 600GB, RAID-5, Hot Swappable)
NIC: 6x 10/100/1000Mb RJ-45 Ethernet Ports
Optional 10GbE Fiber Kit (CRU substitutes P and E Ethernet Ports)
POWER SUPPLY: 2x 750W, Hot Swappable
MISC: iDRAC 9 Enterprise card for light's out mgmt.
Tool-less slide rail kit with cable management arm included

DIMENSIONS: 1U form factor, 29.5" D x 19" W x 1.75" H (74.9cm D x 48.2cm W x 4.4cm H)

HARDWARE SUPPORT: Globally available 24/7 by phone; Keep your hard drive; 4-hour on-site warranty for 36 months; 60 months on-site optional.

REGULATORY & COMPLIANCE: FCC / ICES / EN55022 / VCCI/BSMI / C-Tick / SABS / CCC / MIC Class A and UL60950-1 / Verified to comply with RoHS Directive / Energy consumption and noise emissions in accordance with ISO 9297

Ships with latest Forcepoint software and backwards compatible with 8.2.0 and above Forcepoint versions

FORCEPOINT V20000 G1 APPLIANCE SPECIFICATIONS

PROCESSOR: 2x Intel Xeon Gold 6132
MEMORY: 64GB
HDD: Capacity 2.4TB
(4x 1.2TB drives in 2x 1.2TB RAID-1, Hot Swappable)
NIC: 6x 10/100/1000Mb RJ-45 Ethernet Ports
Optional 10GbE Fiber Kit (CRU substitutes P, E, N, and C Ethernet Ports)
POWER SUPPLY: 2x 750W, Hot Swappable
MISC: iDRAC 9 Enterprise card for light's out mgmt.
Tool-less slide rail kit with cable management arm included

DIMENSIONS: 1U form factor, 29.5" D x 19" W x 1.75" H (74.9cm D x 48.2cm W x 4.4cm H)

HARDWARE SUPPORT: Globally available 24/7 by phone; Keep your hard drive; 4-hour on-site warranty for 36 months; 60 months on-site optional.

REGULATORY & COMPLIANCE: FCC / ICES / EN55022 / VCCI/BSMI / C-Tick / SABS / CCC / MIC Class A and UL60950-1 / Verified to comply with RoHS Directive / Energy consumption and noise emissions in accordance with ISO 9296

Ships with latest Forcepoint software and backwards compatible with 8.5.0 and above Forcepoint versions
